CAREER OBJECTIVE

Motivated second-year Mechatronics Engineering student with a strong interest in mechanical CAD, technical drafting, 3D modeling, and automation systems. Seeking an internship opportunity to apply engineering knowledge, enhance CAD and design proficiency, and gain practical industry exposure in a professional environment.

EDUCATION

B.E. Mechatronics Engineering — Coimbatore Institute of Engineering and Technology, Narasimapuram, Coimbatore

2nd Year – 3rd Semester | CGPA: **7.89**

Higher Secondary (12th) — St. Andrew's Matric Higher Secondary School, Thirumanthurai | 84.3%

SSLC (10th) — St. Andrew's Matric Higher Secondary School, Thirumanthurai | 80.6%

TECHNICAL SKILLS

- AutoCAD & 2D Technical Drafting
- 3D CAD Modeling
- C Programming
- Python Programming
- Java Basics
- HTML
- Engineering Drawing & Design Fundamentals
- Microsoft Office Suite

PROJECT & HANDS-ON EXPERIENCE

2D & 3D Drafting Modelling

CAD-focused engineering design work involving 2D technical drafting and 3D mechanical modeling, demonstrating understanding of engineering drawings, CAD modeling and mechanical design principles.

Built a working robotic model during high school and participated in CAD-based engineering design work, including the Coriza project.

AREAS OF INTEREST

Mechanical CAD & Technical Drafting • 3D Modeling & Product Design • Mechanical Design Engineering • Mechatronics Systems • Industrial Automation • CAD/CAM Technologies • Robotics

STRENGTHS

- Quick learner with strong adaptability
- Effective problem-solving skills
- Strong interest in engineering design and CAD tools
- Team-oriented with good collaboration skills
- Eagerness to learn and apply new technologies

CERTIFICATIONS

AutoCAD / CAD-related certification — details available upon request.
